

Ranger pumps can be engineered for

Blending • Mixing • Transfer • Solvents
Molasses • Gasoline • Resins • Oil
Asphalt • Chemicals

Industrial - Process Pumps

Mixing, Metering, Blending Applications

High & Low Viscosity Liquids

Designed to be Electric Motor Driven

Close-Coupled Gear Reduction - Option (GB)

Series 48 Pumps

Crude Oil and other Oil & Gas Applications

Output .52 gallons per revolution

Maximum of 900 RPM

Generates up to 460 gallons per minute

90° Ports with 3" & 4" flanges

Tank Truck Pumps

Asphalt, Chemical, Oil & Gas Applications

PTO & Hydraulic Driven

Maximum of 750 RPM

Generates from 25 GPM up to 165 GPM

90° & 180° Ports with 2", 2 1/2", 3" & 4" flange

Made in the USA

New Products from Ranger Pumps

SERIES 11
180° Ported Housing

Ranger now offers the 11 series with 180° ports and 2" NPT flanges. This is a good choice when your plumbing does not accommodate the 90° port model. It is available with the standard RV, Double RV and plain endplate. It is also available with the HB, HH and GB models.

**Bi-Rotational Double
Relief Valve**

Ranger now offers a double relief valve for our series 11, 17 and 22 that will provide protection in both shaft rotations. The double relief will continue to protect from overpressure even when the shaft rotation is changed and the pumps flow is reversed. The double relief is field adjustable and works similar to the standard RV.

SERIES 48
Gear Reduction

Ranger now offers an integrated gear reduction unit for the 48 series. It is available in a 4.26:1, 4.88:1 and 5.66:1 ratio.

Ranger pumps are built in the USA from parts made in the USA. We are proud of our history of providing our customers with the highest quality helical gear pumps for over 20 years.

Ranger Pumps is a privately held corporation that was founded in 1989 in Memphis, Tennessee. The company has become a national supplier serving customers in all 50 states and numerous countries around the world.

- Ranger Pumps are built in the USA from parts made in the USA
- Ranger Pumps is a family-owned company
- One-on-One Customer Service
